

9/23/20 Statement regarding the May 22, 2021 Madeline Island Marathon:

We are working with the local city and county health departments regarding the planning for the 2021 Madeline Marathon and Half Marathon, and honestly, we don't have all the answers right now. We still hold out hope that we can have the race, and will react as things continue to evolve. As of now, we are going to hold off on opening registration until we feel confident the race will take place. We know that some of you may want to make travel plans, but please make sure to check out any cancellation policies that may apply.

Stay safe and we hope to see you in May 2021!
